

Self-Funded Home Care

Private, flexible in-home care tailored to your needs — no waiting lists, no aged care assessments.

How it Works

Self-Funded Home Care gives you the freedom to access personalised in-home support without needing government approval or High Income Tested Fees for supports you don't need. Whether you're waiting for funding, don't meet eligibility criteria, or simply prefer more control, this is the fastest way to get the help you need.

You choose how and when support is delivered. We provide everything from clinical nursing to daily supports including domestic support, personal care, transport and we take care of the planning, rostering, and team coordination.

Features include:

- ✓ Fast access — services can begin within 1–2 days
- ✓ No long waitlists or aged care assessment needed
- ✓ Pay-as-you-go model — only pay for the support you receive
- ✓ Transparent hourly rates and no lock-in contracts
- ✓ Optional care coordination service where a Care Manager will support you to manage your needs, organise referrals and support you through care transitions.
- ✓ Optional access to our client app to manage real-time budgets, care plan, rostered appointments and customer support.

What to Expect:

Services are tailored to your goals and may include:

1. Clinical Supports

Wound care, nursing visits, medication support, catheter care, allied health coordination

2. Personal & Independence Support

Showering, dressing, mobility, continence support, transport, companionship, and in-home respite

2. Everyday Living

Domestic cleaning, laundry, gardening, grocery shopping, meal preparation, and home organisation
